Accident and emergency departments
elder abuse, nursing awareness/attitudes/experience S1P48
Acid suppression therapy
in the elderly, audit S1P17
Activity levels
cognitive functioning, community-dwelling elderly people 72
Acute airway obstruction
assessment, young/elderly patients S2P20
Acute angle closure glaucoma
diagnosis/misdiagnosis 421
Acute elderly admissions
role of poor drug compliance S1P27
undiagnosed airflow limitation, prevalence S1P27
Acute geriatric units
determinants of prolonged stay S1P40
elderly patients, discharge into institutional care, comparison of fallers and non-fallers S1P19
Acute hospital admission
from nursing homes S1P39
Acute hypoxia
ventilatory responses, sedentary elderly people S1P45
Acute protein loading
renal response, young and elderly volunteers S1P20
Acute stroke
carotid surgery, evaluation S2P4
management, effect of routine computed tomography head scans S2P10
Acute-phase proteins
qualitative and quantitative alterations 224
Age
effect on anticoagulation services decisions S1P41
effect on balance control/sway/postural reflexes S1P33
effect on cardiovascular autonomic reflexes S2P26
effect on cutaneous wound healing S1P30
effect on heart rate variability S2P25
effect on membrane fluidity, platelets/mononuclear cells S1P34
effect on oral etoposide treatment, small cell type lung cancer S1P46
effect on Piagetian moral reasoning tasks performance 402
effect on QT dispersion/QT interval S1P29
effect on respiratory chain function, mitochondria S1P35
effect on serum albumin levels S1P29
effect on skin collagen S1P35
effects on sensory organization test scores 39
relationship with surgery, lung cancer S1P46
Ageing
association with early postnatal development S2P7
effect on aspartame pharmacokinetics 217
effect on nitric oxide-mediated vasodilation S2P3
effect on pupillary kinetics 432
effect on warfarin dose requirements 429
effects on serum tumour markers 45
T lymphocyte activation 470
Airflow limitation
undiagnosed, prevalence, acute elderly admissions S1P27
Airways disease
inhaler technique, role of asthma nurse S1P8
Albumin excretion
urinary, relationship with 24-hour blood pressure, stroke S2P10
Aldosterone
relationship with 24-hour blood pressure, stroke S2P10
Alternating pressure air mattress
evaluation using a computerized system S2P21
Alzheimer's disease
association with apolipoprotein E status S1P35
decline in cognitive function 209
effect on plasma antioxidant status S2P3
gait disturbance, clinical pattern 313
gait disturbance S1P37
knowledge of diagnosis S1P36
rate of progress, community-dwelling elderly, comparison with institution-dwelling elderly S1P36
response to Tacrine, association with leuko-araiosis S1P36
verbal fluency S1P28
white matter low attenuation, effect on cognitive performance 443
white matter low attenuation, role in cognitive impairment S2P28
Anabolic steroids
use in osteoporosis management, elderly men S1P3
Analgesics
role in prevention of collagen ageing 279
Aneurysms
intracranial, evaluation of endovascular treatment 372
Anticoagulation
atrial fibrillation, views and practice of clinicians, northern region, England S1P11
decisions on services, effect of age/quality of life S1P41
modified Fennerty regimen, evaluation S1P44
services, primary care perspective S1P41
Antihypertensive regimen
effect on psychomotor performance, hypertension S1P5
Antimicrobial resistance
increase, faecal aerobic Gram-negative bacteria, geriatric hospital 197
Antithrombotics
prescription with digoxin, stroke prevention S2P18
Apolipoprotein E
status, association with Alzheimer's disease S1P35
Arterial baroreflex sensitivity
relationship with orthostatic hypotension, elderly patients S2P5
Arterial blood gas
analysis, role in chronic obstructive pulmonary disease assessment S1P8
Arthritis
medication, patient satisfaction S1P23
Aspartame
pharmacokinetics, effect of ageing 217
Aspirin
underuse in acute myocardial infarction S1P13
use for atrial fibrillation/stroke prevention 307
Aspirin esterase
effect of influenza vaccination S1P30
Asthma
quality of life/depression, elderly patients S2P20

Asthma nurse
role for inhaler technique, airways disease S1P8
Asthma patients
bone turnover, effect of high dose inhaled steroids S2P14
Atrial fibrillation
anticoagulation, views and practice of clinicians, northern region, England S1P11
prevention, use of warfarin/aspirin 307
Atrial natriuretic peptide
assay, role in chronic heart failure diagnosis S1P37
Australia
Melbourne, elderly Greek migrants, health status/nutritional status 177
Autoimmune chronic hepatitis
prognosis, elderly patients S2P16
Autonomic impairment
association with pneumonia S1P28
Autonomy
long-term care, elderly people 329
Autopsy
joint working party report recommendations, implementation S1P12
Autopsy rates
effects of autopsy advocates S2P22
elderly people S1P42

Balance
effects of physical exercise S1P4
Balance control
effect of age S1P33
Baroflex sensitivity
arterial, elderly subjects S1P6
Barthel scale
use for disability assessment in chronic airflow limitation S1P9
Bedrails
use in acute admissions, prevalence/determinants S1P48
Benzodiazepine
prescribing indicator, development S2P18
prescription, assessment of appropriateness S2P19
use, association with falls 273
Benzoyl-cholinesterase
effect of influenza vaccination S1P30
Beta-antagonists
topical therapy, effect on respiratory function/cardiovascular function 424
Betaxolol
topical, effect on spirometry S2P23
Blood pressure
24-hour, determination of normotensive range S2P23
24-hour, stroke, relationship with urinary albumin excretion/renin/aldosterone S2P10
24-hour ambulatory monitoring, systolic hypertension patients S1P38
24-hour monitoring following acute stroke S1P7
ambulatory, hypertension, relationship with left ventricular mass/filling pattern 155
automatic ambulatory monitor, assessment for use in elderly patients S2P23
automatic ambulatory monitor, comparison with mercury sphygmomanometer S2P26
effect of stroke S2P11
estimation of circadian profile, effect of wrist actigraph S1P5
orthostatic, effects of low sodium diet, hypertension S1P5
Body mass index
distributions, community-dwelling elderly people 300
Bone
ultrasound assessment, effect of oedema S2P13
Bone density
mastocytosis, relationship with severity of disease 1
Bone markers
mastocytosis, relationship with severity of disease 1
Bone mass
effects of physical exercise S1P3
Bone resorption
effect of testosterone treatment, osteoporosis, eugonadal men S1P3
Bone strength
ultrasound assessment, osteoporosis following stroke S1P22
Bone turnover
effect of high dose inhaled steroids, asthma patients S2P14
primary hyperparathyroidism, assessment techniques, evaluation S2P13
Bristol Activities of Daily Living Scale
development, dementia, assessment of daily living activities 113
Bronchial hyper-responsiveness
prediction from symptoms, elderly patients S1P8

Caffeine
ingestion, effect on cerebral perfusion S2P3
Canada
frailty definition, elderly patients S1P14
Cardiac cachexia
effects on fat malabsorption 144
in the elderly, gastro-intestinal protein loss 221
Cardiac rhythm
disturbances, hypertension, relationship with left ventricular mass/filling pattern 155
Cardio-pulmonary resuscitation
use of patient information sheet S2P27
